Shaun

I wanted to take the time to tell you what a great job that Performance Electric did on our Lakeland Florida warehouse. It is a great looking building that was built on an aggressive schedule and could only have been done with your team's help. I want to personally thank you and the team on the ground that consisted of Shaun, Shane and Gary. The team took personal ownership of all the tasks and made sure they were done as if they owned the building and the work was done for them. They were a great steward of O'Reilly's money by value engineering things and making sure we got what we paid for. Shaun was a hands on foreman that took personal ownership to ensure that all T's were crossed and I's were dotted. He ensured all important details were kept on the forefront. Your team was such a force getting all the tasks going quickly and focused on the critical tasks to keep everything going. You moved mountains to meet the schedule. I want to thank you for making sure all the fine details got finished and were done correctly. I look forward to partnering with your company and the team in the future.

Thanks again for a job well done.

Tim Scholl
Director of DC Field Projects
O'Reilly Auto Parts
